

Registration now live

The industry is now gearing up for the most important event of the year for anyone involved in buying and selling baby products – Harrogate International Nursery Fair, which takes place from Tuesday 28th to Thursday 30th March 2017.

Registration is now live online at www.nurseryfair.com – so be sure to register early and forward this to any new colleagues who may not be familiar with the show.

If you're planning to travel to Harrogate by train you can take advantage of a huge 25% discount on Virgin Trains. This discount is available on all advance tickets – the only condition is that passengers must have their Harrogate International Nursery Fair registration form with them on board – otherwise they will be charged the excess fare – so make sure you pre-register and take your confirmation along with you. It's easy to book – simply click on <https://www.virgintrainseastcoast.com/HIC25>

Everything nursery

Funnababy will be presenting its Moon & Back collection with gorgeous prints and stunning designs including a bedding set, mosquito net, nursery pillow, decorative pillows, playmat and stylish tent. The Teepee tent sets up easily and is constructed from high-quality materials and the play tent, which comes with a padded mat base, is a great hideaway for children. The collection comes in three additional designs and colour variations – floral; up in the clouds; and my sweet home.

Safer sleeping

Little Chick London's award-winning bed-side crib offers all the benefits of co-sleeping but without the associated risks of suffocation. This practical, stylish sleep solution for newborn babies has completely breathable mesh sides, allowing optimum airflow and temperature control. Placed by the side of the parent's bed, mum can experience closeness and clearly see her baby throughout the night, safe in the knowledge that it is contained in its own secure environment. New for 2017 is a breathable crib mattress offering the ultimate in safety and comfort.

Using the latest technology in high performance fabrics, the three-layered cover has a breathable, air permeable surface with a 3D sandwich mesh filling and water resistant backing. The Polyester core provides superior support, is breathable, anti-allergen and unlike foam will not yellow over time.
