

Time is ticking

It's less than a month until the UK's only nursery trade show and buyers can anticipate some fabulous new product launches and latest autumn and winter collections all under one convenient roof at Harrogate Nursery Fair this year. Please read on for some fine examples of exhibitor ranges – and check out the website at www.nurseryfair.com for a full list of companies attending.

Japanese pushchair brand launches into the UK

After much anticipation Combi is now only weeks away from its UK launch at Harrogate Nursery Fair where the company will unveil its first ever UK collection, having already experienced great success in America and Australia.

The portfolio presented includes the flagship Urban Walker Prestige which has been adapted for the UK market. The other design from the stroller range that is being launched is the Well Carry. The strollers are compact and lightweight with an easy one hand open and fold mechanism. Combi's stroller handle is one of a kind with its continuous curve to make steering easy and its innovative reversible handle to give parent's (and baby) choice.

Sleep sheep sensor

Commemorating 11 successful years of products and programs to help children sleep, Cloud b is set to take centre-stage at the Harrogate Nursery Fair with Sleep Sheep Smart Sensor.

Enhancing the award-winning Sleep Sheep, Cloud b introduces the ultimate innovation in sleep technology. Sleep Sheep Smart Sensor is designed to alleviate stress and promote tranquility amongst children and parents with the convenience of a sound-activated sensor.

The new sensor was designed from a team of sleep experts with the vision of creating the best night's sleep for the whole family in an effortless and relaxing way.

Buckle up

Belt Up Kidz is a Retrofit buckle that helps prevent young children from removing their arms from the shoulder straps of their car seats, highchairs, buggies and trikes.

The buckle is adjustable to allow child growth across the chest area; the clips can also be adjusted further up the straps as the child gets taller. Belt Up Kidz comes with a choice of two covers, either a pink princess or blue dinosaur cover. So no more little arms escaping and less distraction!
