

Inspiration for retailers

This year's Harrogate International Nursery Fair will feature an exciting new addition to the show floor – the **Progressive Preschool Forum**.

Hosted by the team behind *Progressive Preschool*, the forum will present a carefully curated programme of five concise, high-impact sessions spread across the three-day event.

Designed to complement the exhibition, the talk programme will provide nursery retailers with practical insights and fresh ideas while allowing plenty of time to explore the show floor and meet exhibitors.

Topics will cover the latest market trends, changing consumer behaviour, sales opportunities, visual merchandising, industry developments and emerging brands, with expert speakers sharing valuable knowledge and real-world experience.

Whether you're looking for inspiration, practical advice or new perspectives, the Progressive Preschool Forum promises to be a valuable new feature of this year's show.

Watch this space for more information on the talks programme and speakers in the run-up to the show.
