

Harrogate is here

The event that the entire nursery industry has been gearing up for is now upon us and in just two days the Harrogate International Centre opens its doors to welcome thousands of buyers to view the latest new baby products from around the world at Harrogate International Nursery Fair.

Whether you are seeking wheeled goods and car restraints, feeding and changing equipment, or toys and gift items, we can pretty much guarantee that you will be spoilt for choice. In the past few weeks we have been highlighting some of the great ranges on offer in our regular newsletters – these can all be viewed on the website at www.nurseryfair.com and here is another taster for you below!

Wooden toys for the bath

Great Gizmos and PlanToys have unveiled a fully waterproof wooden toy collection that will make traditional wood a bath time essential and a welcome alternative to plastic bath toys. This includes a collection of boats and bath sets made entirely of wood and ideal for water play as each new water toys is finished with a special non-toxic coating.

Just the right fit

Justafit adjustable sleepsuits by InfaSense will be officially launched by Bébéléphant at Harrogate. Brainchild of mumpreneur Caroline Driver, who found that sleepsuits with legs too long caused a tripping danger for her own child, the Justafit was invented with hook and loop ankle straps which adapt the sleepsuit to the length of the child's leg and around the sleeves to stop sleeves covering little hands and dipping into their breakfast.

Kinder to little ones

ATTITUDE, a proudly Canadian brand introduces a revolutionary new line of carbon-neutral, environmentally friendly body and hair care products for children and babies: ATTITUDE Little Ones.

“With the launch of our new

line, we wanted to offer consumers a contaminant-free alternative to existing body care products. I have taken a personal interest in developing formulas that can make our day-to-day lives healthier because it doesn't make sense to expose ourselves and our children to any level of toxins that can be potentially harmful," says Jean-François Bernier, President and Founder of Bio Spectra.

Get to Grips with Crawling

Creeper Crawlers is a revolutionary, super cute romper providing traction and protection to ultimately support and increase the chance of children crawling safely and successfully. Creeper Crawlers Crawl Suits have grippable little bugs in key contact areas on the front of the legs and on the soles of the feet, which help tots crawl safely and happily, more successfully and for longer on all surfaces including the increasingly popular wooden and tile floors. **Visit Creeper Crawlers on Stand QP32**

It's a goal!

As Brazil gets ready to host the 2014 Football World Cup, Little Champ is launching a world first football baby gym at Harrogate this year. The award winning company will be launching its Football Play Gym and displaying their other fantastic sports themed baby toys. If you are too grown up for baby gyms, think again, Little Champ has an adult friendly version to try on its stand. **Visit Little Champ on Stand QP42.**
